Description

An elegant pair of four-light silver-plated bronze candelabra, signed by Boin-Taburet of Paris--a prestigious Parisian firm specializing in silversmithing and decorative arts during the late 19th century.Inspired by the Louis XVI style, they feature a striking architectural composition, with a tapered, fluted central shaft topped by a central light and three delicately curved, richly ornamented arms.The circular bases are finely chased and embellished with gadrooning, water-leaf motifs, and decorative friezes. The candle sockets (binets) echo this refined ornamentation, showcasing a harmonious interplay of fluting and gadrooned patterns.The exceptional quality of the chasing, the richness of the decoration, and the elegant proportions all attest to the craftsmanship of the Boin-Taburet
