Description

Fine quality table lamp crafted in cut crystal and bronze, designed in a timeless classical style.
The central baluster-shaped body is made of clear crystal richly cut with diamond-point motifs. The body rests on a matching cut-crystal base mounted on a square bronze plinth supported by four small feet.
The bronze mounts, decorated with beaded friezes and fluted motifs, elegantly emphasize the crystal's lines and lend the piece a refined and distinguished presence.Very good overall condition.
The electrical system has been fully rewired and serviced in our workshop. In keeping with the lamp's original design, we have fitted a two-core textile-covered electrical cord. Consequently, the lamp is not equipped with an earth (ground)
