Description

Émile Gallé - Important Art Nouveau Vase with Lacustrine DecorationA baluster vase with a long, flared neck made of multilayered glass, featuring a lacustrine design finely engraved in acid-etched cameo and finished on the wheel.The landscape depicts a forest of trees with raised foliage bordering a lake in a composition evoking a natural landscape at twilight. A superb interplay of transparency and colors, combining luminous shades of yellow and green with an orange-pink neck.Beautifully crafted, signed "Gallé" in reserve.Height: 40 cm.Very good condition.
