Description

Beautiful pin-cartridge revolver, 8mm caliber; Liège hallmark, blackened wooden grips, with its original patina and a marbled section; mechanism in good condition. L. 18.5 cm; second half of the 19th century. SCH26REV01Rare revolver in this condition, "mint condition" circa 1860-1880This small pocket pin-fire revolver belongs to the large family of Lefaucheux-system revolvers, which were very common in France between 1850 and 1880. These firearms, often manufactured in Liège--as evidenced by the Liège hallmark on the weapon--were signed by Parisian gunsmiths and retailers who marketed them to a bourgeois and well-traveled clientele. This revolver, discreet and easy to slip into a frock coat pocket, is a self-defense revolver.Caliber: 8 mm pin-fireOverall length: 19 cmBarrel length: 8.5
