Description

An elegant pair of glazed earthenware lamps, in the tradition of Moustiers, featuring rich, polychrome designs entirely hand-painted.Shaped like balusters and resting on an octagonal base, they feature charming designs of figures, birds, mythical creatures, and floral arrangements in vibrant colors.One of the two earthenware pieces bears the signature "Lallier à Moustiers," while the second has no visible markings.These two lamps, with complementary designs, are accompanied by their original fringed lampshades, which lend them great charm and elegance.The electrical wiring is old.The earthenware pieces are in good overall condition, with a small chip at the base of one of them, which is barely visible when on display.The antique lampshades show some signs of age,
