Description

A very attractive pair of bronze candlesticks from the Napoleon III period (19th century) in the Barbedienne style. They are in good overall condition and of high quality. Very attractive, almost Art Nouveau-style decoration. Please note a slight warping at the candle holders, but nothing too significant. They measure 26 cm in height with a base diameter of 8.5 cm. Please note a slight amount of play in two of the pieces, but nothing too significant. This is normal given their age. For more information, please contact me.
