Description

Early 1900s French gilded bronze sculpture depicting a female figure in a dynamic dance pose, characterized by an elegant twist of the body and a refined compositional balance. The figure, crafted with slender and sinuous forms, conveys a sense of lightness and movement, enhanced by the bronze's warm golden patina. Particular attention has been paid to the modeling of the body and the hair, which is richly rendered.The sculpture rests on a geometric base of red and white marble, which creates a pleasing chromatic contrast with the golden hue of the bronze.Material: bronze and marblePeriod: early 1900sStyle: Art DecoDimensions: 24x18x49h cmSKU: 17600
