1 950 EUR

Signature : Louis van Teeffelen pour Wébé

Period : 20th century

Condition : Etat d'usage

Width : 200,5

Height : 86

Depth : 48

Description

Dimensions: 200.5 x 48 cm - Height: 86 cm. Made of teak, this sideboard features the designer's signature organic, sculpted handles, as well as an openwork base shaped like a compass. This model stands out for its ceramic tiles adorned with sailboats, created by ceramic artist Jaap Ravelli and inlaid into the drop-down doors.The interior of this low sideboard is laid out in a highly functional and optimized manner, characteristic of high-end Dutch sideboards from the 1960s.The bar area features an original glass shelf that separates the upper storage space for glasses from the lower section, thereby freeing up space for taller bottles.Normal wear and tear given its age and use: the sideboard's top is stained and one leg is damaged--see photos.
