Description

A large antique gateleg table in oak from Belgium, made around 1850. When both drop leaves are raised, the oval top seats six to eight people; with the leaves down it becomes a narrow table of only 62.5 cm deep that fits against a wall.The table stands on beautiful barley twist legs, joined by twisted stretchers that form a rich geometric pattern underneath. The swing-out gate legs support the leaves, and a drawer with a hand-forged wrought iron drop pull sits under the fixed centre section. The old oak has a deep honey-brown patina with a lively grain.Open, the table measures 73 cm high, 170 cm long and 162 cm wide; folded it measures 73 x 62.5 x 162 cm. There are gaps and small cracks between the planks of the top, general wear and old woodworm traces, all consistent with its age.An
