Description

Laughing Buddha in bronze,19th-century China,right hand raised in the mudra.The authentic Buddha, Siddhartha, spent six years practicing strict asceticism before finally realizing that Truth could not be found in extremes.....He is often confused with Pu-Tai, Hotei, the Laughing Buddha, or "Happy Buddha" as he is known in English-speaking countries--the subject of our cheerful model.The story of our Laughing Buddha dates back to the 10th century A.D. (15 centuries after Buddha) in China, where, while leading a quiet monastic life, he was drawn to the pleasures of the table.Naturally jovial, he was known for his great generosity and humble kindness.Over the centuries, Budai became part of Buddhist tradition, simultaneously becoming the deity of happiness and abundance.Budai
