1932 Notary's Cabinet With Flaps

1 650 EUR

Period : 20th century

Condition : Restauré par notre atelier

Material : Oak

Description

This antique notary's cabinet with flaps, also known as a "minutier," was manufactured in 1932. It features 30 flaps arranged in three columns. An old document preserved at the back of the cabinet bears the contact information of its first owner and attests to its history.Its frame is made of solid oak, and the fronts of its flaps are oak-veneered. Fully restored in our antique furniture restoration workshop, it has been finished with three coats of varnish that preserve the natural wood appearance, highlighting the oak's grain.A relatively rare model in this condition, which retains all the character of antique notary furniture.Dimensions: (H x W x D) 206 x 126 x 35 cm
