Description

This exceptional French Bulle electromagnetic clock, created in the 1930s, represents a legendary collaboration between French horological innovators and renowned Swedish glassmakers from Örrefors or Kosta Boda during the Art Deco era. The timepiece features an exposed electromagnetic pendulum movement, while the double dial with Arabic numerals ensures effortless time reading. The handcrafted crystal dome, created specifically for Bulle by top Swedish master glassblowers, mesmerizes the viewer with its sparkling play of light and allows one to observe the continuous beating of the clock's heart. This magnificent piece is mounted on a blackened wooden base. This Bulle clock embodies the perfect fusion of cutting-edge scientific innovation and refined decorative

artistry of the early 20th century, making it an ideal acquisition for collectors and connoisseurs seeking an elegant vintage accent for their interiors.DETAILS:Maker: French manufacturer Bulle and Swedish manufacturer Örrefors or Kosta Boda, ca. 1930s, serial number of the movement "185826".Materials: Brass and metal electromagnetic pendulum movement with copper elements, a hand-cut crystal dome, mounted on a blackened wooden base.Size (approx.): 38 cm (15 inches) high, 25 cm (9.8 inches) wide, 18 cm (7.1 inches) deep.Condition: Very good condition with signs of age and use, including minor scratches and chips at the base of the crystal dome (see photos). The black finish of the wooden base is in good condition. The clock features modern wiring and an adjustable 100-240V to 5V power supply, indicating that technical maintenance and an upgrade were performed for safe connection to contemporary power sources. The clock starts, but full functionality has not been tested; therefore, no warranty is provided regarding the working condition and timekeeping accuracy of the movement, and the item is sold 'as is'.Provenance: Swedish private collection.Shipping: Approx. weight 3.7 kg; packed approx. weight 6-7 kg. Secure, insured worldwide shipping available.Notes: Please refer to the high-resolution photographs, which form part of the condition report. Colours and tonal values may vary when viewed in person, depending on viewing conditions and ambient lighting.
