Description

Necklace made of Mexican agate discs.The necklace is crafted from cords in various shades that highlight the beads that make it up: flat circular discs alternate with dark spherical beads, thus emphasizing their contours; at the front is a triangular piece, in which white and transparent areas alternate with red, yellow, white, and other colors. Agate has been a widely used stone throughout history due to the properties attributed to it (among the Egyptians, it was believed to be effective against the bites of certain animals; in other cultures, this stone was generally considered a symbol of longevity, etc.) and for its spectacular appearance (often used in both sculptures and as the eyes of Egyptian mummies, carved to create remarkable pieces such as the Chalice of Valencia or the cameos of ancient
