Description

Decorative bowl suitable for use as a centerpiece, made of white and green Paris porcelain, accented with gilded bands, signed Rihouet in Paris, dating from the Restoration period, early 19th century. This basket-shaped bowl has a flared form and is entirely openwork, featuring superb interlaced patterns that mimic basket weaving.The central section is decorated with a beautiful band in Empire green, adorned with foliage scrolls and a central bouquet of flowers. It connects to the base, whose openwork design echoes that of the upper section. Signed on the base by Maison Rihouet in Paris.* Maison Rihouet (founded by Louis-Marie-François Rihouet during the Restoration, around 1818) was one of the most prestigious porcelain manufacturers and decorative firms in Paris
