Description

Large 16-light double-tier chandelier with crystals - Early 20th century An elegant and striking chandelier featuring a refined gilded metal structure, arranged in two tiers of sinuous arms and embellished with an extraordinary abundance of crystal pendants in various shapes and sizes.The composition features an elaborate interweaving of curved arms, embellished with small crystal floral elements, while numerous teardrops, faceted prisms, and large shaped pendants--some decorated with engraved star motifs--lend the piece a distinctive luminosity and lightness.The sixteen lights, distributed across the two levels, are supported by elegant, corolla-shaped glass bobeches, from which additional crystal pendants hang.The upper section is embellished with a crown of decorative
