Description

The black-lacquered metal arm rests on a vertical wall plate equipped with a 180-degree swivel axis, finished with two solid brass end caps. Two hinges attached to the swivel allow the wall sconce to be angled up or down using a sliding rod, which is locked in the desired position by a set screw. A brass ball joint connected to the central ring allows the light to be directed.A modern double "diabolo" shade, faithfully reproduced to match the original. Two light bulbs. Lenght of arm: 47.24 inches Lenght with lampshade: 52.76 inches (4.396 feet) Height with lampshade: 18.11 inches
Lampshade diameter (bottom): 15.75 inches
