Gold Ring With Amethyst And Diamonds

2 600 EUR

Period : 20th century

Condition : Parfait état

Description

The large central amethyst has the intensity of a warm, sinful purple velvet, enhanced by the sparkle of the surrounding accent stones and the yellow gold of the setting.The oval shape of the ring's head is unusual, positioned horizontally rather than vertically and "lifted" upward by a lightweight setting that allows light to pass through the stone.A perfect gift for a Christmas full of color and light.The ring head measures 2.5 × 2 cm; the amethyst alone measures 2.1 × 1.6 cm; the ring weighs 14.8 grams.
