Description

An exceptional monochrome dinner service in deep red/oxblood, from the early days of Robert Picault's production in Vallauris around 1950.Since his pieces were generally sold individually in the shop next to the studio, it is rare to find such a complete set. Given as a wedding gift after the couple fell in love with it during a vacation on the French Riviera in the early 1950s, this set has remained relatively complete. With few missing pieces and in very good overall condition, it is much rarer than the colored pieces produced later.I am offering for sale this set of 86 pieces, which have stood the test of time, consisting of the following:12 dinner plates.12 soup bowls.15 dessert plates.13 coffee cups with 11 saucers.1 milk jug with a handle and spout.11 mazagrans.12 bowls with handles.1 flat,
