Earrings With A White Pearl And A Black Pearl

700 EUR

Period : 20th century

Condition : Parfait état

Description

These earrings are truly unique, featuring one white pearl and one black pearl set in yellow gold.Once worn, the earlobe setting disappears from view, hidden by the pearls, which have a diameter of 9 mm.The contrast between the white pearl on one earlobe and the black pearl on the other challenges our natural expectation of symmetry.The earrings were made in Italy in the 1970s and 1980s.
