16th-century Wood Paneling / Chest Front

1 000 EUR

Period : 16th century
Condition : Bon état
Material : Solid wood
Length : 140cm
Width : 58cm

Description

The front of this oak chest is carved with grotesque masks, mythological and satirical figures surrounded by foliage, and human figures framed by wavy hair--all characteristic of the Renaissance period. This wood paneling can be hung on a wall just like a painting from that era or used as a headboard.France, Normandy, last quarter of the 16th century.
