Description

A lovely wall clock; the simple mahogany case , 148 centimeters tall , features a precision timepiece.This type of clock, dating from around 1840 , measures time with great precision.A characteristic feature of this clock is the pendulum, which has a minimal swing.The weight that hangs down the side of the case is light, while the pendulum is heavy.The clock has no striking mechanism , which is common for this type of clock.The white enamel dial, signed "Villy " features two Brequet hands as well as a seconds hand.This clock has a power reserve of one week and requires servicing (in nice untouched condition).Height: 148 cm Width: 50 cm Depth: 29 cm
