Height : 74,5

Depth : 46

Description

A 1960s sideboard made in Northern Europe, crafted from teak wood and featuring a hinged door, central drawers, and sliding doors that provide ample space for organizing items. Its clean lines and the warm hue of the teak make it suitable for a variety of home settings. It currently requires restoration work, which can be carried out in our specialized workshops in Cambiago to restore it to its original splendor.MOMOMO0330223
