## Description

Opaline glass mantelpiece set with Delft-style decorationTrilobed shapeMade by the Théodore Legras factoryLate 19th - Early 20th centuryElegant antique fireplace set in white opaline glass, consisting of three matching pieces: two trilobed cylindrical vases and a bowl with a trilobed body, typical of certain decorative pieces produced by the Legras glassworks around 1900.The set is decorated with a Delft-inspired blue monochrome palette, depicting Dutch landscapes featuring windmills and riverside scenes. The pieces are accented at the top by a blue ornamental frieze, featuring a heart-shaped stripe pattern that lends rhythm and elegance to the composition.This type of set was traditionally displayed on mantelpieces in the late 19th century.Composition of the set1 trilobed opaline
