Description

A 19th-century Empire-style cup with handles, made of bronze and gilded brass, resting on four small feet.The center is adorned with a large imperial eagle with outstretched wings, perched on a thunderbolt, set within a circular medallion bordered by a neoclassical frieze.The decoration is complemented by two winged, ribbon-wrapped scepers placed on either side of the eagle, a laurel wreath tied with a ribbon at the top, and a stylized floral motif at the bottom.The two openwork handles echo the decorative vocabulary of the Empire style with laurel wreaths, ribbons, and scrollwork.The reverse features a central mahogany background, surrounded by claw feetA 19th-century piece in the First Empire style, incorporating the full range of Napoleonic symbolism: eagle, lightning, laurels, scepers, and
