Dining Table, Restored In Solid Walnut, 19th-century

880 EUR

Period : 19th century

Condition : Très bon état

Material : Wallnut

Description

A beautiful solid walnut dining table from the Restoration period, dating from the 19th century.This elegant table rests on six richly molded, turned baluster legs, which give it a striking presence and great stability. Its oval-shaped top features beautiful proportions and a warm finish that highlights the walnut grain.The table comes with three solid wood extension leaves, allowing its length to be extended to 2.83 m. Additional extension leaves can be added to further increase its seating capacity.The table is in very good condition and reflects excellent craftsmanship. A table with character--both elegant and perfectly functional--ideal for a large dining room.Dimensions:Height: 75 cmWidth: 135 cmDepth: 132 cmLength with three extensions:
