Description

Elegant pair of Genoese picture frames dating from the Charles X period, in the first half of the 19th century, crafted in mahogany-veneered wood.The frames feature broad, beautifully shaped concave mouldings, highlighting the attractive natural grain of the mahogany and its rich, warm shades of brown and reddish tones.The inner edges are embellished with a finely carved continuous gadrooned decoration, reflecting the Neoclassical taste that remained fashionable during the Charles X period.Their harmonious proportions and deeply moulded profiles give these frames a distinguished appearance while retaining a refined and understated elegance.A beautiful pair of antique frames, particularly suitable for displaying paintings, drawings, engravings or
