Description

Oil on canvas. Mid-20th century. Trace of a signature in the lower right corner.The painting draws on the Novecento style and creates a realistic yet idealized landscape due to the presence of figures that evoke classical representations in Italian figurative art: two minstrels playing and singing, three dancing female figures evoking the Three Graces, and the couple in the right-hand corner enjoying a romantic picnic on the grass.The landscape features a central mountain peak overlooking a fortified city along a wide river.Stylized frame.ARARNO0328658
