# Stereoscopic Viewer With Offset Lens, Made Of Mahogany, Circa 1920

450 EUR

Period : 20th century

Condition : Très bon état

Material : Gilted wood

## Description

A very beautiful Unis-France mahogany stereoscopic viewer for 6 x 13 cm slides, featuring a rare eye-spacing adjustment and focus control via a knob, circa 1920.This device was designed by the renowned A. Mattey company and bears the "Unis-France" inscription, a quality label certifying products manufactured in France.The metal slider with a graduated scale on top allows for precise adjustment of the distance between the two eyepieces to suit the user's facial structure.Link to the website https://www.lavalisearlesienne.com/product-page/visionneuse-st%C3%A9r%C3%A9oscopique-acajou-%C3%A0-d%C3%A9centrement
