Cenedese Murano Blown Glass Vase

240 EUR

Period : 20th century

Description

A blown glass vase designed by Giovanni Cenedese, one of the most important Murano glassmakers of the second half of the 20th century.Master Cenedese is best known for his glass sculptures and for his innovative work in terms of form and technique, a tradition later carried on by his son Simone.Here, however, the vase's shape and decorative elements are classic, evoking the lightness of the floral style.The body of the vase features a delicately shaded burgundy hue, while the gold band is adorned with a refined phytomorphic design, almost like embroidery.The signature is engraved on the base, and the original label is still present.
