Punu Okuyi Mask, Gabon

650 EUR

Period : 20th century

Condition : Etat d'usage

Description

Among African artworks, Punu masks have always been admired for their high artistic quality. They are idealized portraits of women and are worn by dancers on stilts during highly spectacular dances. I particularly love the serenity and peace that emanate from these faces, which are reminiscent of depictions of Buddha. Height: 29 cm; beautiful patina from use. Note the exquisite carving of the hairstyle, as well as the symmetry and perfect beauty of the face--characteristic of older models.... Mouila region
