Material : Painted wood

Length : cm 13,3 grande cm 15,2 lunga

Width : cm 8,5 grande cm 4,3 lunga

Description

These turned and varnished wooden containers shaped like eggplants are typical examples of applied art from the late 19th and early 20th centuries, often made to store tea, snuff, or spices. In Europe, especially during the Victorian era, these objects fell into the category of so-called "treen"--small, hand-turned household utensils and boxes made from fine woods or fruitwood.
