Three Small Photo Frames (id-size), For Displaying On A Surface Or Hanging, Metal, 1950s, Like-new

80 EUR

Period : 20th century

Condition : Très bon état

Material : Metal

Description

Three charming little miniature "ID-size" metal frames featuring scrollwork and embossed designs, dating from the 1950s, all three of different models.The removable "spring" on the back makes it easy to place the frame on a surface or hang it; simply press it to the side, remove it, and adjust it as desired; this also makes changing the photos extremely easy--they're under clear plastic, not glass... which would certainly be too thick!...All three are in excellent condition and will be shipped without the photos.Dimensions:Total heights between 6.5 cm and 5.8 cm; total widths between 5 cm and 4.3 cmVisible photo area = 3.4 cm x 2.5 cmWeight of all three = 60 gramsExtremely careful shipping at an additional cost, to be determined based on destination.
