750 Yellow Gold Solitaire Ring With A 0.11 Ct Tension-set Diamond

500 EUR

Period : 20th century

Condition : Très bon état

Material : Gold

Description

This 750-th yellow gold solitaire captivates with its minimalist design and its setting of contemporary purity. The approximately 0.11-carat brilliant-cut diamond is delicately suspended between two gold plates, with no visible prongs or setting, creating a striking impression of floating.The effect is both poetic and technical: the stone appears suspended in the light, revealing its full natural brilliance. The warm, luminous yellow gold subtly contrasts with the diamond's white brilliance, accentuating its fire and transparency.A sleek, elegant, and resolutely modern ring, perfect for those who seek beauty in simplicity.DetailsMaterial: 750-th yellow gold (18 k)Stone: Brilliant-cut diamond, approximately 0.11 ctSetting: Tension setting (set between two gold plates)Style: Contemporary,
