Description

A superb and imposing Indian chest made of teak wood, richly carved, likely originating from Rajasthan or Gujarat. It features remarkable decorative elements, including relief figures, finely openwork geometric friezes, and carved horse heads.Its magnificent antique turquoise-blue patina, naturally weathered over time, lends it exceptional charm and authenticity.An interesting feature: this piece has two doors--one on the front and one on the side--several drawers, and two secret compartments, attesting to a particularly ingenious design. A piece full of character, as decorative as it is functional. Northern India Length: 150 cmDepth: 63 cm + 17 cm half-horse carvings at each end of the front.Condition: antique patina, signs of use and wear from
