Description

An elegant and distinctive antique safe from the Biella region, crafted around the mid-19th century, a testament to the historic tradition of Piedmontese metalwork.The safe features a sturdy iron-clad structure, characterized by metal bands and numerous domed studs, arranged in a harmonious geometric pattern.The front is embellished with refined decorative ironwork, featuring volute motifs, chiseled elements, and two distinctive ornamental appliqués with sinuous profiles at the bottom.The contrast between the dark surfaces and the metal bands gives this piece a distinctive character and remarkable elegance.The safe retains its original locking system, featuring:Two secret mechanisms for opening the lock.A secret mechanism for opening the keyhole.Two keys.The safe is entirely
