Art Nouveau Firewall

325 EUR

Period : 20th century

Condition : Etat d'usage

Material : Other

Width : 150 cm

Height : 123 cm

Description

An object made ofsheet metal that emerged at precisely the same time as the Art Nouveau floral school of Nancy. Its three panels feature a floral designenameled with undulating lilies, blendingwith the air like the flames of the hearth they conceal.A fewtraces bear witness to its use. A remarkable objectthat would be worthy of the signature of a famous designer of its time.
