granulation effect that enriches the design and contrasts with the understated elegance of the polished surfaces of the setting.The setting, delicately highlighted by its raised profile and the contours of the band that supports it, blends seamlessly with the ring's wide, domed shoulders.The design as a whole is distinguished by a remarkable continuity of curves: the softness of the oval shape echoes that of the ring's body, while the roundness of the grains subtly extends this aesthetic vision.A ring with character, both opulent and understated in its lines, whose balanced proportions and enveloping profile offer excellent comfort when worn.Estimated total diamond weight: 1.30 caratsTotal gross weight: 9.00 gRing size: 48 - Resizing options available upon request by our workshop (current diameter 1.61 cm / US size 4 3/4)Condition: very good condition, imperceptible micro-scratches, natural inclusions in the diamonds not visible to the naked eye.Full remote payment available via the website.Please contact us for any information regarding alternative payment methods.Are you a professional?
