Octagonal Mahogany Drum Table, England - Late 19th Century

2 900 EUR

Period : 19th century

Condition : Restauré par notre atelier

Material : Mahogany

Diameter : 126

Height : 78

Description

This sumptuous octagonal drum table embodies all the elegance and refinement of British library furniture, with its eight-sided top upholstered in bluish-green leather, beautifully accented by a gilded iron frieze that enhances its unique luster. A true masterpiece of cabinetmaking and ingenuity, its apron conceals a superb alternating pattern of facades that reveals four drawers equipped with their original, functional locks, thus offering storage spaces that are as discreet as they are secure for your most precious documents. The piece rests with striking presence on a central solid mahogany shaft that flares out into a four-legged base with perfectly fluid lines; its gilded brass tips incorporate functional casters, allowing you to move this prestigious piece of furniture wherever you wish.
