

## Pendulum Fork Circus

1 500 EUR

Period : 19th century

Condition : Très bon état

### Description

Superb Grandfather clock pendulum mechanism and on a circus theme. The central medallion represents a circus ring with the stands and spectators in the background, a clown appears and disappears in the left window and a jumper rears his horse to pace back and forth pendulum. The system works perfectly well. The whole sheet is pushed with its original polychrome. 92 cm high, the medallion is 17 cm in diameter. Joined the movement of the clock that I have not tested.
