Condition : état de maison

Material : Water color

Length : cadre 36cm vue 26cm

Height : cadre 28cm vue 18cm

Description

Elegant pair of watercolors Holandaise "winter scenes" of époque XIX. They account for one, a frozen river or patina characters on village background and the other a sleigh on a bridge with skater farm background. Working with very fine details of qualities in their original frames. The paper of one of two slightly yellowed with temps. Ses two typical painting of the time of life scenes are treated in the spirit of Dutch painting XVII. Quality work in good condition.
