

Three Netsukes Sculptes In Corozo Mushrooms, Fruit

650 EUR

Period : 19th century

Condition : Très bon état

Description

Absolutely delightful and with a stunning sculpture precision, these three netsukes are carved in a very hard seed, I think it is corozo and the artist used the different layers of skin to accentuate the illusionist side. Each one is signed in red ideograms, height of the mushroom: 43 mm. The pictures speak for themselves ! More photos and more in our shops in Pau and Biarritz and on our website: galerielhoste.com.
