Description

Large Oil on Panel representing the surroundings of Chennevières-Sur-Marne in 1873 and signed bottom left but the signature is difficult to decipher! Bevelled panel in a beautiful golden channel frame. Very beautiful painting with a superb light effect representing a meander of the marne at Chennevières. Attention I took pictures with and without artificial light, it is a painting that requires lighting to give its full potential. Beautiful historical testimony, a view that has changed since then.
