Jug From Martincamp - Sandstone XIXth - Pottery Of Normandy - Folk Art

100 EUR

Period : 19th century

Condition : Bon état

Material : Sandstone

Diameter : 28 cm

Height : 39,5 cm

Description

Jug with neck, of Martincamp, sandstone,
Popular Art - Normandy XIXth.
Swollen globular body,
handle digitized in hollow, and marks to the
finger at its base,
typical narrow base contrasting with wide
paunch,
great pottery with beautiful aesthetic to judge the
skill of the potter.
Red-brown flamed glaze with moire effect
depending on the position of the piece in the
potter's oven.
Good condition. Small chips of use to the foot
(may be of origin when deflowing), tiny original
firing fold when the attachment of the handle to
the neck (without gravity), small lack of use on
the side of the handle.
