

## Empire Painting : Back Lady

3 400 EUR

Period : 19th century

Condition : Très bon état

### Description

This beautiful painting is almost enigmatic: this very elongated treatment of the dress seen from behind, the very tall figure, the intriguing face, all this contributes to a strange seduction of which one never tires.

From a prestigious Pau collection.

It was made around 1805/1810 in oil on paper, mounted on canvas on a frame 26 X 13 cm later and framed by a beautiful golden rod a little rugged 36 X 23 cm.
