About...

PRIMAVERA, the Art studio of the Parisian
department store "Le Printemps"

To develop the modern decorative arts and
promote their distribution, René Guilleré, founder
of the Society of artists decorators, convinces
from 1912 the department store "Le Printemps" to
make produce furniture and works of art by
home-made studios. Supervised by artists as
Charlotte Chauchet, the wife of Guilleré, their
production is called "Primavera", name that, by
its Latin etymology, reminds the department's
store brand "Le Printemps".
