Pygmalion And Galatea, Pendulum Louis XVI De Thiéry In Paris

6 500 EUR

Signature : Thiery à Paris

Period : 18th century

Condition : Très bon état, fonctionne

Description

Pendulum, gilded bronze and veined red marble, to the history of Pygmalion and Galatea, polychrome enamelled dial signed Thiery in Paris. Meas. (H x W x D): 38 x 37 x 13 cm. The moment seized for this model of pendulum, is that where the wish of Pygmalion is realized. His sculpture comes alive. Galatea comes alive under his amazed eyes. So that the subject is very explicit, a bust placed on a column and instruments necessary to the sculptor are disseminated on the case of the pendulum. The figures were inspired by the group of Etienne Maurice Falconet. Very beautiful and rich gilding with its old well preserved brownies. Rare model in very good condition.
