

## Negative Nasa : The Astronaut Franck Borman

120 EUR

Period : 20th century

Condition : Très bon état

### Description

Hey? They were there? !! ...

With my unfortunate propensity to buy and put my purchases on a shelf or against a wall, I sometimes find ten or fifteen years after certain objects. I had found these two pockets of NASA in a set of which the rest had escaped me. It is obvious that these are original originals and not reprints.

The first contains a black and white negative that shows us the famous astronaut Franck Borman mess, format of the film plan 12.5 X 9.9 cm. Very good condition, the white traces are in fact specular reflections.

Do not hesitate to ask us by email or phone for additional information or photos.

We have many paintings to restore at our shop of Pau for which we prefer the sale on the spot,
