Nasa Photo : Amerrissage Of Gemini V (conrad And Cooper)

120 EUR

Period : 20th century

Condition : Très bon état

Description

Hey? They were there? !! ...

With my unfortunate propensity to buy and put my purchases on a shelf or against a wall, I sometimes find ten or fifteen years after certain objects. I had found these two pockets of NASA in a set of which the rest had escaped me. It is obvious that these are original originals and not reprints.

The second contains a slide that shows us the recovery of Gemini V after a landing a little risky following a comma-free approximation that led to a gap of 140 km on the planned place! The flight was inhabited by Conrad and Cooper who thus held the flight time record of the time. Format of the film plan 12.5 X 9.9 cm.

Very good condition, colors drawing a little on the magenta. Do not hesitate to ask us by email or
