Description

Cigar humidor with system (with muqiue box) in the shape of a barrel, box of matches in the shape of a barrel, in blackened wood, gilded and loupe of amboine, of Napoleon III nineteenth century. This cigar cellar is in good condition, in its juice, it will be restored. It is probably missing the scraper part that makes the pendant to the matchbox-barrel. A small zipper on the front of the base operated the music but the music box no longer works (normally plays two tunes). At the back of the barrel, a small key normally pushes the cigars one by one (no longer works). A note: missing a foot (replaced by a screw), slot on blackened wood support barrel (see last photo), the brass creclage a little unhooked in one place, some scratches, tiny shocks and wear of time, look good photos. Diameter: 21,5 cm Length: gun
