Period : 18th century

Description

Pleated fan with leaf, panoramic cart gouache, "the pastoral". Eighteenth time. Bones in bone (or better) carved, openwork, and certis of plates of mother-of-pearl. Rivure made of metal, probably silver, on which two fine stones were to exist. State very good, but far from perfect: some lack of mother-of-pearl plates, small cuts of paper. The great freshness of the whole quickly makes forget these legitimate outrages, the object has more than two centuries. Length closed 26.7 cm. Port colissimo recommended offered for France.
